

CHV-T

Three-phase capacitor (indoor and outdoor use)

Description

CHV medium-voltage capacitors, made up of different basic capacitive elements. These basic units are connected in series and parallel with the purpose of obtaining the power at the necessary voltage.

All the elements are protected by an internal fuse. This fuse is disconnected if a fault is detected, isolating only the basic unit that has been damaged. Internal fuse protection ensures greater system safety and service continuity.

Application

CHV-T capacitors are used to build static and automatic capacitor banks of up to 12 kV.

The stainless-steel box of the **CHV-T** makes it a versatile product that can be used in indoor and outdoor applications.

Technical features

Electrical features	Voltage	1...12 kV
	Nominal power	25...750 kvar
	Frequency	50 or 60 Hz
	Dielectric losses	≤ 0.15 W / kvar
	Capacity tolerance	-5%...+10%
	Location	Indoor / Outdoor
	Protection	Internal fuse (depending on the type)
Discharge resistance (in compliance with IEC 60871-1)	Location	Interior
	Discharge time	≤ 10 minutes *
	Residual voltage	≤ 75 V *
Insulators	Material	Porcelain
	Pollution level	16 mm / kV (other leakage lines, on demand)
	Insulation level	7.2 - 12 kV
Overload	In current	1.3 I _n permanent
	In voltage	1.1 U _n 12 h in 24 hours
		1.15 U _n 30 min in 24 hours
		1.2 U _n 5 min in 24 hours
	1.30 U _n 1 min in 24 hours	
Environmental conditions	Operating temperature	Category C (in accordance with IEC 60871-1)
	Maximum temperature (*2)	50 °C
	Mean maximum value over 24 hours	40 °C
	Mean maximum value over 1 year	30 °C
Build features	Dielectric	Rough polypropylene film
	Electrode	Laser-cut aluminium sheet
	Saturant oil	SAS-40E or M/DBT (PCB-free)
	Dimensions (mm)	depending on the type
	Weight	depending on the type (see table)
	Box	Painted stainless steel, RAL 7035 Features two flanges for attaching to the frame and avoiding mechanical efforts on the porcelain terminals
	Assembly position	Horizontal or vertical
	Pressure switch	Optional
Standards	IEC 60871-1, IEC 60871-4	

(*) Please ask for other features or configurations (*2) This is assumed to be an isolated case.

CHV-T

Three-phase capacitor (indoor and outdoor use)
